

LitePAC

The LitePAC product is a robust portable computer built using all aluminum sheet metal to provide tough, go-anywhere unit suitable for tough environments and mobile applications. With the slim, light weight, and 2-expansion slots design, the LitePAC can fit inside the airplane compartment and be freely configured with other uniquely designed add-on cards for various applications. Optional touch screen allows LitePAC to operate without keyboard & makes the system smaller & lighter.

To protect from the environment, the LCD screen of the LitePAC is guarded with a specially treated anti-glare tempered glass. Every unit comes equipped with cooling fans and easy access to its expansion slots for immediate system upgrade or maintenance. With its simplistic design and rugged construction, the LitePAC is the most economic, durable and versatile portable platform for your applications.
