

TransPAC

The TransPAC is a new and unique portable platform that was designed for users who needed a truly mobile workstation but cannot give up on the power and expansion capabilities of a standard desktop workstation. It is battery-powered.

While all of our products are portable because of their compact and lightweight design, the TransPAC is fitted with an ocean-server 160W power supply with 4x Li-Ion 95Whr battery packs. This system can operate solely on battery for up to 4 hours or with the supplied charger to allow for continuous usage while charging.

The TransPAC features a high-performance, low-wattage Intel i7 Core processor, 4 full-length expansion slots, and up to 8TB of HDD or 4TB of SSD storage. It is simply an exceptional platform for any field applications where an AC power source may not be available.

TransPAC Technical Specifications

Models	TransPAC DS200 (Core i7 specs)
Dimensions/ Weight	14.05" x 16.46" x 6.96" (H x W x D) / 18.7 Lbs
Display	17.3" Full HD 1920x1080 resolution with LED backlight
CPU	Intel® Core™ - LGA 1150 4th Generation i7/i5/i3 Processors (Recommended 65W TDP)
Memory	4x 240-pin DDR3 DIMM Sockets Up to 32GB DDR3 non-ECC Unbuffered Memory 1600MHz non-ECC Unbuffered Memory DIMM Sizes: 8GB, 4GB
Video Output Options	Onboard Video (Depending on Motherboard) Integrated Graphics (Depending on CPU) Video Card (Consult with Sales Rep which GPU fits your needs)
Slots	Up to 4 x PCI-e Expansion Slots
Brightness/Contrast	300 cd/m2 brightness / 400:1 contrast ratio
SATA	2x SATA 6.0Gb/s + 4x SATA 3.0Gb/s
Expansion Bays	4x 2.5" HDD/SSD Expansion Bays 1x 2.5" HDD/SSD Internal Tray
Power	Ocean-Server 160W Power Supply with 4x Li-ion 95Whr battery packs
Regulation	CE, FCC, RoHS
